MODEL Q90BR/G80 QUEEN 9

#### **GENERAL FEATURES**

- AISI 304 stainless-steel bases and worktops, Scotch-Brite finish
- Depth of 900 mm for high power and performance
- Catalogue offers more than 350 standard models
- Worktop, base cabinet, base cabinet with doors and oven versions
- 20/10 worktop thickness
- Twin-piece knobs prevent infiltration of dirt and have an IPX5 water ingress protection rating
- Gas ranges having burners with various configurations and power ratings: 3.5 kW 5.7 kW, 7 kW and 10 kW. Double-ring burners for 7 and 10 kW models
- Wide range of accessories

The knobs offer optimum grip and help the chef to have the setting controls right under his eyes. Special attention has also been paid to the knob bezel that has been expertly designed to avoid penetration of liquids and/or dirt. Thanks to the IPX5 water jet ingress protection rating, awarded after passing specific tests, knobs and knob bezels can be washed at the end of the working day without affecting performance or safety.

#### **TECHNICAL DETAILS**

#### GAS

MANUAL TILTING

# PRODUCT'S RANGE PLUS

Self-balancing lids.

Wide-radius tilting cooking tank.

Equipment certified for low voltage directive 2014/35 / EU according to the international CB scheme.

The 8 rows of flame in the M80 model and 12 in the M120 model guarantee uniform cooking. A thermostat regulates the temperature from 100 to 280 °C for precision management of cooking.

Thanks to the IPX5 water jet ingress protection rating, awarded after passing specific tests, knobs and knob bezels can be washed at the end of the working day without affecting performance or safety.

The front bar is a comfortable place for the chef to lean on; it means you will remain at a safe distance from the worktop and therefore protects from accidentally knocking against both items lying on the worktop and the knobs.
